

A. Membership

The Geographic information Science Commission (GC) currently has 15 members. We have increased in number modestly since the past report. Several of our members are reaching the ends of their allowed terms and we have begun the process of finding new members and evaluating an even larger increase in the numbers. The following list provides the members' names, institutional affiliations and countries.

Name and Title	Instituion	Country
Lees, Brian, Professor Emeritus	The University of New South Wales at the Australian Defence Force Academy	Australia
Chengu, Zhou, Professor	Chinese Academy of Sciences	China
Benenson, Itzhak, Professor	Tel-Aviv University	Israel
Jean-Paul Bord, Professor	University of Montpellier	France
Francis Harvey, Associate Professor	University of Minnesota	USA
Kumaran, Thangavelu, Professor Emeritus	University of Madras	India
Geertman, Stan, Professor	University of Utrecht	The Netherlands
Roosaare, Juri, Professor	University of Talinn	Estonia
Salvemini, Mauro, Professor	University of Rome - 1	Italy
Schuurman, Nadine, Professor	Simon Fraser University	Canada
Shariff, Abdul Rashid Bin Mohamed, Professor	Universiti Putra Malaysia	Malaysia
Sivertun, Professor	MVI/MTA Swedish National Defence College	Sweden
Ryiskiy, Ilya, Dr.	Moscow State University	Russia
Vozenilek, Vit	Palacky University	Czech Republic

B. Meetings

The GC organized Spatial Data Handling (SDH) in 2012, held in Bonn, Germany in advance of the IGC Cologne. The conference was supported by Prof. Dr. Sabine Timpf, University of Augsburg. Participants discussed a range of topics in 14 full papers and 10 short papers. Prof. Matt Duckham, University of Melbourne, provided a provocative keynote presentation entitled "When Computing Happens Somewhere". Although participation in the SDH conference, held every two years, remains on constant level, we would like to see it grow more, to around 100 participants.

We also co-organized a GeoComputation meeting held August 2012 in Leeds, England

With the International Society for Photogrammetry and Remote Sensors (ISPRS) and IGU commission Modeling Geographical Systems (12.31) we are organizing a joint conference in Toronto, Canada from 6 to 8 October 2014. The commission is also beginning planning of the 2016 SDH conference in Beijing China.

C. Networking

With the Spatial Analysis commission and Applied Geography commissions we have collaborated on the organization of sessions at IGU regional conferences and also worked to maintain and deepen exchanges between our commissions' members. Collaboration with ISPRS commenced in 2013.

D. Publications

The proceedings from the 2012 SDH conferences were published by Springer Verlag in the Geographical Information Series. It contains 14 papers that were selectively reviewed in a double-blind process by at least two reviewers.

E. Archival Contributions

During the period in question, no archival contributions have been made. Email correspondence from the period can be made available to the IGU. Please advise on formats.
