“Application for Full Membership in the International Geographical Union (IGU)”

On behalf of the Geographical Society of Mongolia, I am writing to formally request Full Membership in the International Geographical Union (IGU).

The Geographical Society of Mongolia is the officially recognized national representative body for geographers in Mongolia. The Society brings together leading national universities and research institutions engaged in geographical science and education through its membership. Its core mission is to disseminate geographical knowledge and information to society, and to support research, sustainable use, conservation, and protection of the natural environment. Our Society unites researchers, educators, and professionals working across physical geography, human geography, GIS, environmental studies, and related interdisciplinary fields.

Through this letter, we would like to express our strong interest in joining the IGU as a Full Member. We believe that Full Membership will provide valuable opportunities for Mongolian geographers to actively participate in IGU Commissions, international conferences, collaborative research projects, and global scientific networks. In addition, Full Membership will allow Mongolia to contribute more effectively to the international geographical community through voting rights and the nomination of candidates to the IGU Executive Committee.

We understand that the annual fee for Full Membership for Mongolia is USD 550, and we confirm that this membership fee will be covered by the Geographical Society of Mongolia. We are confident that joining the IGU will significantly strengthen international cooperation, promote the advancement of geographical sciences in Mongolia, and enhance engagement with the International Science Council through the IGU.

Thank you very much for considering our application. We look forward to the opportunity to become an active member of the International Geographical Union.

Yours sincerely

Dr. Prof. Battogtokh Dorjgotov
Chair
The Mongolian Geographical Society
